This exhibition explores the landscape genre with intricate observation and dramatic invention, the works become reimagined worlds born from the natural environment. The series is inspired by the Baroque style, expressing heightened contrasts and theatrical illumination to transform the everyday into something staged and luminous, inviting us to focus on nature's quiet wonder.

Lee's unique expression of sensual light, lush green tones and intricate mark making, invites the viewer to a terrain that feels both earthly and dreamlike. Her meditative works hold the symbolic power to satisfy our instinctive desire to observe nature's splendour, balance and grace.
